environments, cinemas etc.

---

Samples on request

Good phonic absorption  
capacity

Resists the propagation  
of fire

Certificate on request

Made in France

Wide, absorbent, insulating chlorofibre fleece.

- Use with a transparent lining au son et à l'air
- For optimum effectiveness
- Monitored density for excellent absorption of medium and high frequency
- Thin insulation (10 mm thick)
- More eco-friendly than stone or glass wool
- VOC-free (Volatile organic compounds)

### COMPOSITION

Flame retardant chlorofibre dans la masse. Excellent thermal and phonic insulation.

### TECHNICAL CHARACTERISTICS

Weight/density: 600 g/m<sup>2</sup>  
Thickness: 10 mm.

### PIECE SIZE

Width: 2m50  
Length of roll: 15 linear metres.

### COLOUR

White.

### FIRE PROTECTION CLASS

M1 (certificate on request).

### ACOUSTIC PERFORMANCE

Excellent (see figure).

### FASTENING METHODS

Bonded or stapled.

### PACKAGING

Cut or roll.
